

This is one of my most wonderful reports from the line of work I am fortunate to be in: my younger son, Joshua. He gives me permission to write about this.

Thank you, Josh.

For several years Josh had been suffering from headaches, blistering and cracked up skin on feet and fingers. Fingers were particularly interesting because he loves doing art work and that made it almost impossible. He is also a keen sports person and his issues became more and more of a problem. After Kong to New Zealand) in 2007, his more frequent and more painful. joy of temporary relief through knew that he did not want to go Throughout removal and house – tracked and eventually last year

moving here (from Hong headaches got more and At school he discovered the pain killers; despite that he and see a 'normal G.P.'. renovations we all got side it all culminated. Josh's feet

got to a point that only he will want to describe.

We are grateful to have had the help of a friend and healer, who initiated the process. Thank you, Susani.

So, one day, he finally asked me to go and seek help from somebody like me, not somebody who would put a steroid on it (as had been done 5 years back at a 'normal GP's practice). We were so fortunate to have a wonderful 'Natural Vibrational Therapist and Homeopath' recommended to us, right here in Christchurch. This started exposing the root cause of major emotional trauma (parents' break up) and the healing process was initiated. I am forever grateful for this work, also because it made Josh starting to believe in his own healing abilities.

This year January he finally asked me to help him further with eliminating the root cause of this problem and finally get rid of it, once and for all. During some Time Line work, followed by Huna healing we could both actually see over the duration of one hour that the rash (see photo) started to go!

It all went, his headaches never came back and in the past 6 months he has grown about 20 cm's! Thank you to all those who have shared with me their ways of healing. Joshua and Barbara Clegg

Update in Januar 2011: In November 2009 I trained as a Meta Medicine Integrative Health Coach and was blessed to find out an indepth veritable 'ocean of information' on root cause diagnosis.

2<sup>nd</sup> January 2010 Joshua talked to his grandfather in England for the first time in years (on skype). The ekzema came back !

So then that week we sat down, and talked down the Meta Medicine track, whilst applying a scenar device AND using NES infoceuticals (all this to open up the mind more and I think this was only more useful because of the mother/son link, where he would hide things away not to hurt me?).

It is now one year later and nothing has re-appeared.

Our bodies are a wonderful 'instrument' and – when understood – communicate precisely with us. When did we come to believe that we could ignore a 'deep and significant emotional hurt' for sometimes a whole life – and beyond ?!

In gratitude to my son, who helped himself and by allowing me to write this will have been helping many more out there. ©Barbara C Clegg [www.walkyourtalkinternational.co.nz](http://www.walkyourtalkinternational.co.nz)
